The Genesis Process A New Beginning

WHAT IT IS

The Genesis Process is a recovery model used by the New Beginnings Program. It is a bible based relapse prevention curriculum. Students begin to identify faulty beliefs and replace them with truth from the Word of God. Genesis counselors assist guests in creating individualized plans for relapse prevention.

WHY IT WORKS

The Genesis Process allows the student to turn mistakes into growth, reduce self-sabotaging behaviors and address the root cause of those behaviors.

What the New Beginnings Program has done for our guests..

"I now have my hope back! I know that life will be completely different from now on."

"The Mission saved my life. Without them, I have no idea where I would be."

"Now I have the tools to attack life head on and make a difference. Not only for me but for my entire family!"

Long-Term Programs

NEW BEGINNINGS

The New Beginnings Program is a 12 month long term recovery program. Students reside on-site and receive one-on-one Case Management Vocational Training, have full coursework, and attend large/small group classes.

TRANSITION

The Transition Program is a 6-month program for New Beginnings Program graduates. Graduates receive assistance in finding jobs and permanent housing. Case managers work to ensure their transition back into the community goes smoothly and successfully.

After guests have completed our New Beginnings, we recommend they enroll in our Aftercare Program, Acts 1:8 Family.
